

# ECOGUARD TYPE G

Dust Collection Cover for Grinding Applications

**VERTICAL GRINDING**

**SURFACE PREPARATION**

Alpha® introduces a new EcoGuard designed for collecting dust when using the Alpha® HSG-125 or other High-Speed Angle Grinders. The EcoGuard Type G is intended for use when grinding with wheels up to 5" in diameter. It is made of high-quality construction for heavy-duty applications. This dust collection cover creates a virtually dust-free environment when connected to a vacuum. It also includes several connectors and spacers to easily allow for use on many common grinders.

**Using the EcoGuard Type G with the HSG-125** The HSG-125 has two flange/lock nut sets included that allow the use of 4", 4-1/2" and 5" diameter grinding wheels. It can also be used on other manufacturers' machines by simply changing the connector.

PART NO.	DESCRIPTION
ECOGRDGR	EcoGuard Dust Collection Cover Type G
500026	Flexible Connector Hose 18"

## Equipment Included

- EcoGuard Dust Collection Cover w/ Connector
- Collar
- Additional Connector Assembly for Most 5" Grinders
