HORIZONTAL STONE LIFTING CLAMPS

For lifting and moving of concrete blocks and natural stone. Long-lasting, high friction replaceable Polyurethane gripping pads protect load surfaces against damage. Suitable for use on cranes or forklift booms.

- Adjustable jaw opening width.
- A large gripping range, making it suitable for a wide range of applications.
- Lifting eye for attaching to a crane hook.
- Auto locks & unlocks the load.

Product Code	Grip Range	Working Load Limit	Net Weight
AHLC-730	11" - 28"	3307 lb	247 lb
AHLC-1050	11" - 41"	3307 lb	267 lb
AHLC-1370	11" - 54"	3307 lb	273 lb
AHLC-2010	11" - 79"	3307 lb	302 lb
AHLC-2010-4T	12" - 79"	8818 lb	503 lb

Additional Rotation Feature Available

The rotation feature is available for most of the AHLC series, (with the exception of the AHLC-2010-4T). To achieve this feature the rotating pads and body stoppers may be purchased separately.

Product Code	Product Description
AHLC-RP	AHLC Rotating pad
AHLC-BT	AHLC Body Stop

VERSA BLOCK CLAMPS

The Versa Block Clamp is a versatile lifting tool, expertly designed to move various items, including concrete blocks, rubber tires, drums, and more. It features adjustable sliding pads, customizable to accommodate objects of different widths. These pads are securely locked into place with a latch on each side, ensuring stability during lifting.

Product Code	Grip Range	Working Load Limit	Net Weight
AVBC-600	4" - 24"	2646 lb	110 lb
AVBC-1100	6" - 43"	6614 lb	355 lb

STONE & CURB PLACEMENT CLAMPS

This two-man block clamp is suitable for a large range of handling applications, such as lifting/handling concrete and granite kerb stone as used in road construction or for heavy building blocks. The center chain can be attached to machines for heavy lifting.

Product Code	Grip Range	Working Load Limit	Net Weight
SCC04	4" - 20"	441 lb	37.3 lb
ASKC200	0 - 10"	441 lb	51 lb

MONUMENT CLAMP

The Aardwolf Monument Clamp/Lifter Automatic is ideal for lifting and setting concrete, stone, and marble building fascia. It is helpful for moving and positioning heavy or awkward retaining wall blocks and slabs. The clamping jaw and the center of gravity are easily and quickly adjustable using the locking pins. The jaws of the lifter are lined with vulcanized rubber to ensure a safe and non-marking grip.

Product Code	Grip Range	Working Load Limit	Net Weight
GPM1500A	1"-12"	3307 lb	115 lb

ROCK LIFTERS

ASG

ARL-800

ARL-1200

ASG

The Aardwolf Stone Grapple requires no hydraulics to operate. The Stone Grapple lifting tongs are fully automatic and give the operator complete control to grip or release a load. The three serrated tines contacting the load allow for a very stable lift cycle every time. Once the operator lowers the stone grapple onto a bolder, the stone grapple's internally-housed actuator allows the operator to begin lifting the bolder.

Product Code	Grip Range	Working Load Limit
ASG	14" - 47"	4408 lbs

ARL

The Rock Lifter Grapple is a transformative solution for professionals handling large rocks and boulders in fields like landscaping and stonemasonry. It reduces physical strain and manual labor traditionally involved in moving heavy materials. Equipped with an actuator, the device is designed for automatically seizing and releasing materials throughout the operation cycle, significantly streamlining the task and boosting efficiency.

Product Code	Grip Range	Working Load Limit
ARL-800	14" - 31"	1653 lbs
ARL-1200	24" - 47"	3307 lbs

AVBL1000

VACUUM BLOCK LIFTER

A powerful battery-operated vacuum lifting device for laying marble, granite slabs, concrete, and other related materials. Robust and compact, this Vacuum Block Lifter can be suspended on all types of lifting equipment by means of load hooks, chains, cables, etc.

Product Code	Pad Size	Working Load Limit	Net Weight
AVBL380	19.6" x 11.8"	838 lb	110 lb
AVBL1000	12"	265 - 529 lb	40 lb

AHVL500

VACUUM LIFTER HANDY

The Vacuum Lifter Handy is powered by a venturi vacuum generator, which needs a source of compressed air in order to function but requires no electricity. The vacuum generator has no moving parts and therefore no lubrication is required. This lifter consists of four (4) pads which can be replaced with different pads so that it fits with the sizes of materials.

Product Code	Pad Sizes	Working Load Limit	Net Weight
AHVL500	20.5" x 5"	265 lb	46 lb
	20.5" x 6.3"	397 lb	
	20.5" x 8.7"	617 lb	
	20.5" x 12.6"	1102 lb	

AVLHP480**AVLHP240**

HAND PUMP VACUUM LIFTER

The Hand Pump Vacuum Lifter is powered by a hand pump or venturi pump designed to be used in the factory or on the building site. It is especially suitable for the horizontal transportation of non-porous sheet materials such as steel plate, glass, aluminum plate, and polished marble or granite.

Product Code	Pad Size	Working Load Limit	Net Weight
AVLHP480	20.5" x 12.6"	529 - 1058 lb	51 lb
AVLHP240	12"	265 - 529 lb	40 lb

Additional Foam Pad Available*

Product Code	Pad Size
AVLHP520	20.5" x 12.6"

*Foam must be used with compressed air

**ASL200**

SCISSOR CLAMP LIFTERS

The Aardwolf Scissor Clamp Lifters are equipped with a rubber contact pad for the safe handling of materials. By means of a gravity controlled locking latch, the clamp automatically grips and releases the materials. Suitable for lifting marble and granite slabs, tombstones, concrete barriers, curbs (kerbs), and median walls.

Product Code	Pad Size	Working Load Limit	Net Weight
ASL200	2" - 8"	2204 lbs	104 lb
ASL300	6" - 12"	3307 lbs	106 lb

SPVL-100

SMALL PNEUMATIC VACUUM LIFTER

The Small Pneumatic Vacuum Lifter has a small compact design that allows operators to adapt to various applications. The low weight and versatility make heavy loads easy to handle in vertical and horizontal positions, so only one operator is required to handle loads. The load is supported by the lifting device and not by the operator, this reduces the physical stress and strain on the operator.

The lifter is powered by a venturi vacuum generator, which needs a compressed air source but requires no electricity. The vacuum generator has no moving parts, so no lubrication is required.

Product Code	Pad Sizes	Working Load Limit	Net Weight
SPVL-100	15.7" - 9.4"	265 lb	26.4 lb

AVPL40

VACUUM PAVER LIFTER

The Aardwolf Vacuum Paver Lifter uses a standard air compressor (minimum 5.2 cfm @ 125 psi) to create a vacuum in a line attached to a handle or grip. The user sets the pad on the tiles or stone, creating a tight suction seal, then lifts and sets the stone in place. A Venturi trigger on the handle provides a quick release. The Aardwolf Vacuum Paver Lifter reduces injuries and saves your back, knees, and hands.

Product Code	Pad Sizes*	Working Load Limit
AVPL40	4.7" x 8.7"	88 lb
	3.1" x 4.7"	26 lb
	6"	88 lb

*3.1" x 4.7" pad is included. 4.7" x 8.7" and 6" pad are special order

APSL

PAVING STONE LIFTER

The Paving Stone Lifter saves time and reduces stress on the back and knees when installing paving flags. It can also be used with concrete, sandstone, slate, etc. Safe lifting height recommends when using the Paving Stone Lifter is no more than 75mm (3") to 125mm (5") above the work area.

Product Code	Pad Sizes	Working Load Limit
APSL	8" x 8"	132 lbs
	10" x 10"	264 lbs

APVL-1000

VACUUM LIFTER WITH PETROL FUELED ENGINE

This vacuum lifter with a petrol-fuelled engine can handle heavy concrete elements of up to 1 tonne quickly and precisely. Providing for the easy and efficient handling and laying of natural stone, concrete and marble slabs, and steps, etc. Specifically this lifter is used in combination with a mobile crane for working convenience and flexibility on construction sites.

Product Code	Pad Sizes	Working Load Limit
AVPL-1000	31.5" x 19.7"	2204 lbs
Motor: 0.98 bar
