COATING REMOVAL AT ITS BEST!

Patented technology makes this unique product available for "Clog-Free" coating removal for epoxy, urethane, glue and adhesives for surface preparation. The Spike Disc has a sandwiched-rubber cushioned light-weight body that reduces noise and vibration, so that operator can work for longer periods of time. Spike Disc is available in 4.5", 5" and 7" with a 7/8" arbor or a 5/8"-11 zinc hub.
