* ALPHA® VDP-700

Powerful 1900W (Maximum): Only tool on the market to offer a 1900W maximum output for the most demanding polishing tasks.

Power Cord: Alpha® provides the longest electric cord (14 AWG) to cover large work areas without the need to connect to extension cords.

Spindle Lock: Spindle lock makes for quick changes of the backers and accessories.

Lightweight: Ergonomically designed polisher is lightweight, comfortable to hold and easy to control during all applications.

Heavy-Duty Gear System: Precision gear system maintains the RPM at a constant speed during the application.

Variable Speed Dial: The variable speed range of 700 - 3,500 RPM allows the operator to adjust the speed to the industry application.

Soft Start: The Soft Start feature eliminates the possibility of burning of sensitive materials upon startup of the polisher.

Electronic Speed Control: Built-in speed stabilizer for constant speed output.

C-Handle & Side Handle: Alpha® offers multiple handles for user convenience and comfort.

Rubberized Housing and Handle: Designed for user comfort and protects the surface from possible damage.

Accessories: Alpha® offers a variety of accessories such as rotary backer pads, diamond face foam pads, wool pads, microfiber pads, and other abrasive products.

Technical Support: Alpha® offers in-house technical support as well as field support on our polisher and accessories.

Service Center: Alpha® is the only manufacturer which provides an on-site service center in the US for our polishers.
