

Ecocaddy

Stand-up Grinder Caddy for the Ecogrinder

The Alpha[®] Ecogrinder Caddies allow the operator to stand and not have to work on their knees when grinding and sanding concrete, terrazzo and masonry products or doing surface preparation work. The height adjustment mechanism allows the caddy to be adjusted to accommodate individual users. The unit is available in two versions for both Ecogrinders (110V and 220V). A halogen light shines above the grinding area to show scratches in dark areas. This light can be turned on/off independently.

Attach the Alpha[®] Dust Bag Carriage directly to the Ecogrinder and utilize the Ecogrinder's built-in vacuum system, making the operation simple, easy and virtually dust-free!

For a complete floor polishing system, combine the Alpha[®] Ecogrinder, Caddy, Dust Bag Carriage and polishing tools. Installation is simple, using only an adjustable wrench to complete.
