

ALPHA®
PROFILER F

PROFILER F-SERIES

Alpha® introduces a new addition to the Profiler Series with the Profiler F, commonly known as Ogee. Since creating an Ogee edge requires a large amount of material to be removed, Alpha® recommends a two-step process to make your

operation easier. Position 0 breaks the corner fast, followed by Position 1 to complete the Ogee profile. The Alpha® Profiler F was designed to eliminate the use of a router and can easily be used on a hand polisher.
