

# ALPHA<sup>®</sup> SURFACER

*ADD THE FINAL TOUCH!*

Alpha Professional Tools<sup>®</sup> introduces Surfacer Grinding Cup Wheels: a new grinding wheel system developed to smooth out the underside of table tops. This two-step process utilizes two grit types: black for coarse and white for fine. The coarse grit is designed for fast material removal and the fine grit smooths out the surface of the stone.

**Coarse Finish**

**Fine Finish**

PART NO.	SIZE	MAXIMUM RPM	ARBOR(S)	GRIT
SG4C11	4"	14,500	7/8", 5/8-11"	COARSE
SG4F11	4"	14,500	7/8", 5/8-11"	FINE
