

# HIGH-PERFORMANCE PNEUMATIC GRINDER

**ALPHA**  
PSG-125

# PSG-125

**INDUSTRIAL  
QUALITY**

## FEATURES + BENEFITS

- Powerful 1.4 HP motor with speed control governor
- Compact ergonomic aluminum body
- Reversible safety lever throttle
- Three auxiliary handle positions
- Built-in oil port for daily maintenance
- Adjustable rotating exhaust
- Wet cutting kit available

Specifications:		Equipment Included:
Air Pressure.....	90 PSI	<ul style="list-style-type: none"> <li>• Lock Nut with 7/8" Arbor</li> <li>• Inner Flange</li> <li>• Side Handle</li> <li>• Hex. Wrench (1/4")</li> <li>• Pin Wrench</li> <li>• Double Open-End Wrench (1" / 32mm)</li> <li>• Rust Inhibitor Oil (8oz / 237ml) (AIR-008)</li> <li>• Safety Guard</li> </ul>
Air Consumption Max.....	32 CFM / 934L/min	
No Load RPM.....	12,000	
Weight.....	4.6 lbs. (2.1 kg)	
Length.....	11-3/4" (298mm)	
Air Inlet.....	3/8" NPT	
Spindle.....	5/8"-11	
Max. disc capacity.....	5" x 1/4" x 7/8"	
Max. HP.....	1.4 HP

# PSG-125 DIAMOND CUTTING KIT

*\*Blade not included*

This system is recommended for virtually dust-free masonry cutting applications using a diamond blade. It fits not only standard cutting blades but also wide kerf blades for tuck pointing, crack chasing and grout removal. Also, great for curve cutting blades for sink-hole cut out applications. To keep the keep dust to a minimum, an optional water feed system is available.

5480-1301	PSG-125 DIAMOND CUTTING KIT

# PSG-125 GRINDING KIT

*\*Wheel/Disc not included*

This system is designed for virtually dust-free sanding, grinding, paint and coating removal with up to 5" discs. A removable flat cover allows grinding right to the edge while the dust cover prevents dust from escaping. Also, great for surface preparation, whether it is on concrete, metal, wood, composite or other surfaces. To keep the keep dust to a minimum, an optional water feed system is available.

5480-1302	PSG-125 GRINDING KIT

# PSG-125 METAL CUTTING KIT

*\*Blade not included*

A unique industrial angle cutter designed for ferrous and non-ferrous metal cutting applications with abrasive cut-off wheels or carbide blades. A safety guard, along with a base plate, eliminates the dangerous kick-back typical on hand-held grinders. Also, it minimizes sparks, debris and odor. This new system cuts angle iron, c-channel, conduit, spiral duct, metal studs, rebar, stainless steel, aluminum plates and bars, steel palates, threaded rods, unistrut as well as many other materials.
