# Alpha Professional Tools®

## Tool Repair Tools – Available from Alpha®

**RUST INHIBITOR OIL**
Part Number: AIR-008
Reference: For use on all pneumatic tools as a rust inhibitor

**SMALL BEARING PULLER**
Part Number: AT004
Reference: Used to pull the small bearings off the armatures on the electric stonecutters and polishers

**METAL CYLINDER CLAMP**
Part Number: AT001
Reference: Used to disassemble the rotor assembly on the AIR-300

**LARGE BEARING PULLER**
Part Number: AT005
Reference: Used to pull the gear and bearing case off the rotor assemblies on the PSC-150 and PSG-125

**METAL CYLINDER CLAMP**
Part Number: AT002
Reference: Used to disassemble the rotor assembly on the AIR-658, 860 830, 850, PSC-600 & PSG-658

**SMALL COMMUTATOR CLEANING STONE**
Part Number: AT006
Reference: Used to clean and polish the commutator bars on the armatures of the electric motors

**CRIMPER FOR DOUBLE CRIMP TERMINALS**
Part Number: AT008
Reference: Used to crimp the double crimp solderless connectors for the speed pots, on/off switches, and carbon brush holders on the electric tools

**PLASTIC BLOCK**
Part Number: AT003
Reference: Plastic block is used to disassembly all tools without damaging the aluminum housing

**50-55 PIN SPANNER WRENCH**
Part Number: AT009
Reference: Used to loosen and tighten the nut part # 3002-0035 on the PSG-125 and reposition the rear body

**REMOVAL WRENCH FOR 3001-0079**
Part Number: AT010
Reference: Used to remove and install the spring seal part # 3001-0079 on the PSC-150

**REMOVAL WRENCH FOR 3002-0008**
Part Number: AT011
Reference: Used to remove and install the lock nut part # 3002-0008 on the PSG-125

**DC112 LUBE/SEALANT  5.3OZ TUBE**
Part Number: AT012
Reference: The lube/sealant can be used on any O-ring or rubber seal to decrease the friction and increase the sealing

**BEARING PUSH REMOVER FOR 12MM ID BEARINGS**
Part Number: ST004
Reference: Can be used to remove any bearing with a 12mm ID

**BEARING PUSH REMOVER FOR 10 MM ID BEARINGS**
Part Number: ST005
Reference: Can be used to remove any bearing with a 10mm ID

**BEARING PUSH REMOVER FOR 8MM ID BEARINGS**
Part Number: ST017
Reference: Can be used to remove any bearing with an 8mm ID

**BEARING PUSH REMOVER FOR 6MM ID BEARINGS**
Part Number: ST018
Reference: Can be used to remove any bearing with a 6mm ID

**40-42 MM PIN SPANNER WRENCH**
Part Number: ST033
Reference: This pin spanner is used to remove and install the nut 38mm part # 300028 on the AIR-300

**BEARING PUSH REMOVER FOR 6.3MM ID BEARINGS**
Part Number: ST045
Reference: Can be used to remove any bearing with a 6.3mm ID

**NUT REMOVAL TOOL FOR 300015**
Part Number: ST051
Reference: Used to remove and install the nut 34mm part # 300015 on the AIR-300

**NUT REMOVAL TOOL FOR 300029**
Part Number: ST052
Reference: Used to remove and install the retainer nut part # 300029 on the AIR-300

**NUT REMOVAL TOOL FOR 516-50**
Part Number: ST055
Reference: Used to remove and install the 44mm nut part # 516-50 on the AIR-658, 680, 830, 850, PSC-600 and PSG-658

**BEARING PUSH REMOVER FOR 15 MM ID BEARINGS**
Part Number: ST057
Reference: Can be used to remove any bearing with a 6.3mm ID

**BEARING PUSH REMOVER FOR 9 MM ID BEARINGS**
Part Number: ST059
Reference: Can be used to remove any bearing with a 6.3mm ID

**SCREW CAP REMOVAL TOOL**
Part Number: 260301
Reference: Used to remove and install the screw cap on AWS-110, ECC-125, ESC-125

**GREASE 14oz CARTRIDGE**
Part Number: 300048
Reference: For use in all tool gearboxes

**GREASE NEEDLE POINT COUPLER**
Part Number: 300051
Reference: For AIR-300 monthly lubrication
